

# TARP DUFFLE

High-capacity transport bag for climbing or work gear.

## DESCRIPTION

Made of durable laminated material and so almost indestructible.

Rugged construction with extra bartacks and double stitching.

Four compression straps.

Two outside "daisy chains".

Amply resilient to be roughed up in-flight, or to be transported up a mountain via a yak or off-road vehicle.

Padded shoulder straps enable to carry the bag on the back.

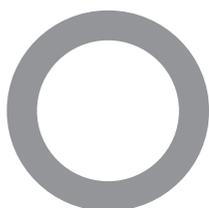

Two pockets on the top for small items, two inside mesh pockets.

Twin haul handles on ends.

## KEY FEATURES
