

RIGGING PLATE

1/3 – 3/5 – 5/7

Device for multi-point anchoring.

DESCRIPTION

All attachment points are big enough to allow locking sleeves of most carabiners passing through.

Rounded holes allow direct attachment of ropes or slings to the rigging plate.

Provides plenty of attachment holes.

Helps to organize carabiners at the anchor point.

Both central attachment points can accommodate up to 3 carabiners.

Low profile of the plate makes the connection as short as possible.

1/3

3/5

5/7

KEY FEATURES

- provides efficient force distribution at different load directions

STANDARDS

CE 1019

- Rigging plate 1/3 5C.2.2:2016
- Rigging plate 3/5 5C.2.2:2016
- Rigging plate 5/7 5C.2.2:2024

FEATURES

1/3 = 36 kN
3/5 = 50 kN
5/7 = 55 kN

1/3 = 65 g
3/5 = 145 g
5/7 = 285 g

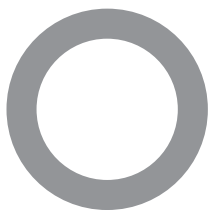

unique number

3 YEARS warranty

MATERIALS

- 100 % light alloy
